Purdue Educators to Teach Adult Programs

Tyson Library is excited to partner with educators from local Purdue Extension offices to offer adult education opportunities. In April, we have two classes on the calendar that will be taught by the educators from the Ripley and Decatur county offices. Registration is required for these programs.

Baylee Dwenger of Ripley County is leading a class on food budgeting and meal planning on April 23rd. Her class will help patrons plan for nutritious meals while saving money at the grocery store.

Chris Fogle of Decatur County will be coming back in April to continue teaching patrons about food preservation. On April 17, his class will focus on the water bath and pickling/fermenting methods. His class will include a lab component in which attendees will get hands-on experience.

TYSON LIBRARY TRIVIA

March's Question:

What consortium is Tyson Library part of that allows our patrons access to millions of resources?

To enter to win our quarterly Adult Prize Drawing, email your answer to info@tysonlibrary.org. Be sure to include "Tyson Library Trivia" in the subject line. Check next month's newsletter to see if you answered correctly!

February Answer: County Agriculture & Home Economics Agents

ONLINE RESOURCE

NASA.gov

We are in the path of totality for the solar eclipse coming on Monday, April 8. NASA's website has information about this upcoming event and more. Clicking the link below will take you to their page where you can learn about the expected times in which the eclipse will be visible from different cities on the path mapped above. There is also information that will be helpful in planning for experiencing the eclipse - including safety measures you should take before and during the event.

BOOK REVIEW

A Long Stretch of Bad Days by Mindy McGinnis

Reviewer: Aly Wright, Tyson Library Staff

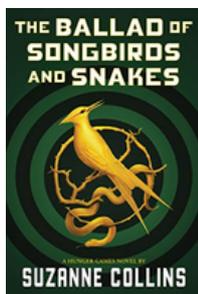

This book caught my attention. The author does a great job of leading you on this mystery through this rural town and takes you places that you wouldn't have expected to go. It has a great ending, too. You won't be disappointed picking up this as your next read.

Reviewer: Tali Crowe, Tyson Library Staff

Two high school seniors from different parts of town end up investigating the town's one murder in the history books. And, what was supposed to just be a history-themed podcast episode to help them both graduate turns into some surprising discoveries in not only their eyes but also the greater communities. I'd recommend this book for anyone who enjoys good characters and fun banter.
